## PANASONIC: ECO & SMART IDEAS FOR A SUSTAINABLE LIFESTYLE

A better life, a better world.  
Panasonic is creating a safe and secure society with clean  
energy.

#### Solar Power Generator

HIT solar cells achieve maximum output even on smaller roofs.

#### Home AV

Panasonic offers a wide range of energy saving home equipment to fulfil a sustainable and comfortable lifestyle.

#### Heat Pump

The Aquarena Heat Pump is part of a new generation of heating systems that use a renewable, free energy source: air, to heat or cool the home and to produce hot water.

#### Fuel Cell

The Panasonic Fuel Cell is an energy-creating device, which generates electricity and heat at the same time with chemical reaction between hydrogen extracted from natural gas and oxygen.

#### Solar Power Generator

Our mobility space can be connected to our HIT solar panels – with the help from our storage batteries.

#### LED Lamps

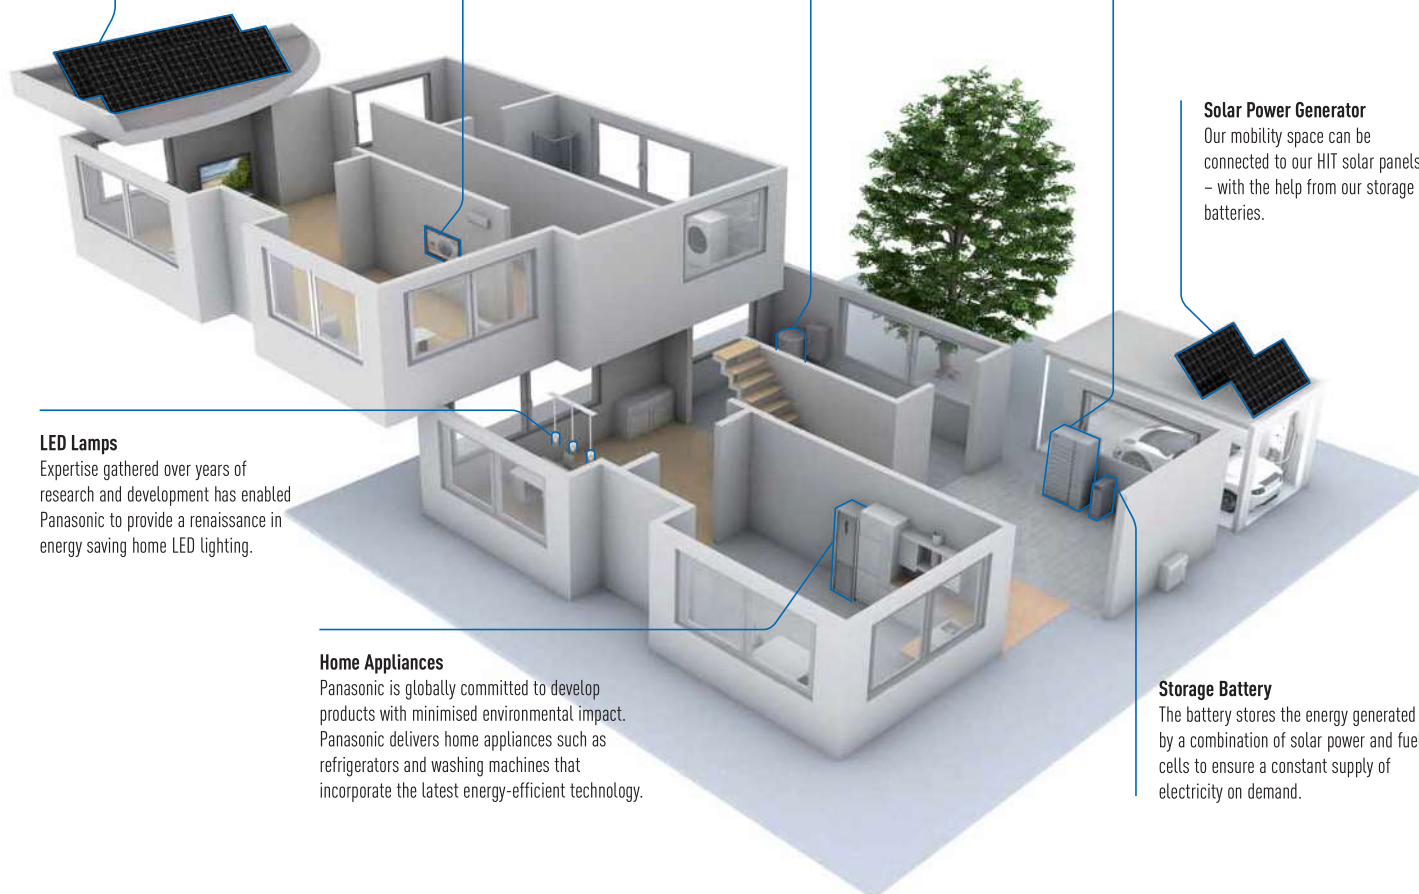

Expertise gathered over years of research and development has enabled Panasonic to provide a renaissance in energy saving home LED lighting.

#### Home Appliances

Panasonic is globally committed to develop products with minimised environmental impact. Panasonic delivers home appliances such as refrigerators and washing machines that incorporate the latest energy-efficient technology.

#### Storage Battery

The battery stores the energy generated by a combination of solar power and fuel cells to ensure a constant supply of electricity on demand.

# A DESIRE TO CREATE THINGS OF VALUE

**"Recognising our responsibilities as industrialists, we will devote ourselves to the progress and development of society and the well-being of people through our business activities, thereby enhancing the quality of life throughout the world."**

Panasonic Corporation's Basic Management Objective, formulated in 1929 by the company's founder, Konosuke Matsushita.

## Panasonic: celebrating two major milestones in 2018.

### Panasonic Corporation, 100th anniversary

Look ahead to the "Future," keep taking on challenges. Starting back in 1918, Panasonic has constantly added to its guarantee for innovation, taking tomorrow's technologies and applying them to today's needs.

Always making "people" central to our activities, and thereby focusing on "people's lives," we will continue to provide better living for our customers. This is the unchanging commitment we at Panasonic have had over many years.

Now, we are aiming to expand our contribution to "better living" everywhere. This means that in the variety of spaces where our customers go about their lives, ranging from inside the home, the office, the store, the automobile, and the airplane, as well as in the town, we will provide not only single pieces of hardware, but also total solutions including software and services. We will pursue the concept of "A Better Life, A Better World," meeting the needs of each individual customer.

To that end, we will leverage the strengths that we at Panasonic have long developed in our consumer electronics business, together with the strengths of our business partners who have in-depth expertise in many areas, and we will work to combine these strengths by pursuing "Cross-Value Innovation." In this way, we will create new value. This is the new and challenging task we are now addressing.

**1958**

First room air conditioner launched for domestic installation.

### Panasonic Heating and Cooling, 60th anniversary

Panasonic starts with a desire to create things of value. Sixty years ago, as hard work and dedication results in one innovative product after another, the new company took its first steps towards becoming the electronics giant of today. Heating and Cooling Solutions designed and produced by Panasonic since 1958.

**1971**

Starts production of absorption chillers.

**1973**

Panasonic launches the first highly efficient air-to-water heat pump in Japan.

**1975**

Panasonic becomes the first Japanese air conditioner manufacturer in Europe.

**1985**

Introduces first GHP (gas heat pump) VRF air conditioner.

**1989**

Introduces world's first simultaneous 3-Pipe heating/cooling VRF System.

**2008**

Etherea new concept: high efficiency and high performances with a great design.

**2010**

New Aquarea. Panasonic introduces Aquarea, an innovative new, low-energy system in Europe.

**2012**

New GHP units. Panasonic's gas-driven VRF Systems are ideal for projects where power restrictions apply.

**2016**

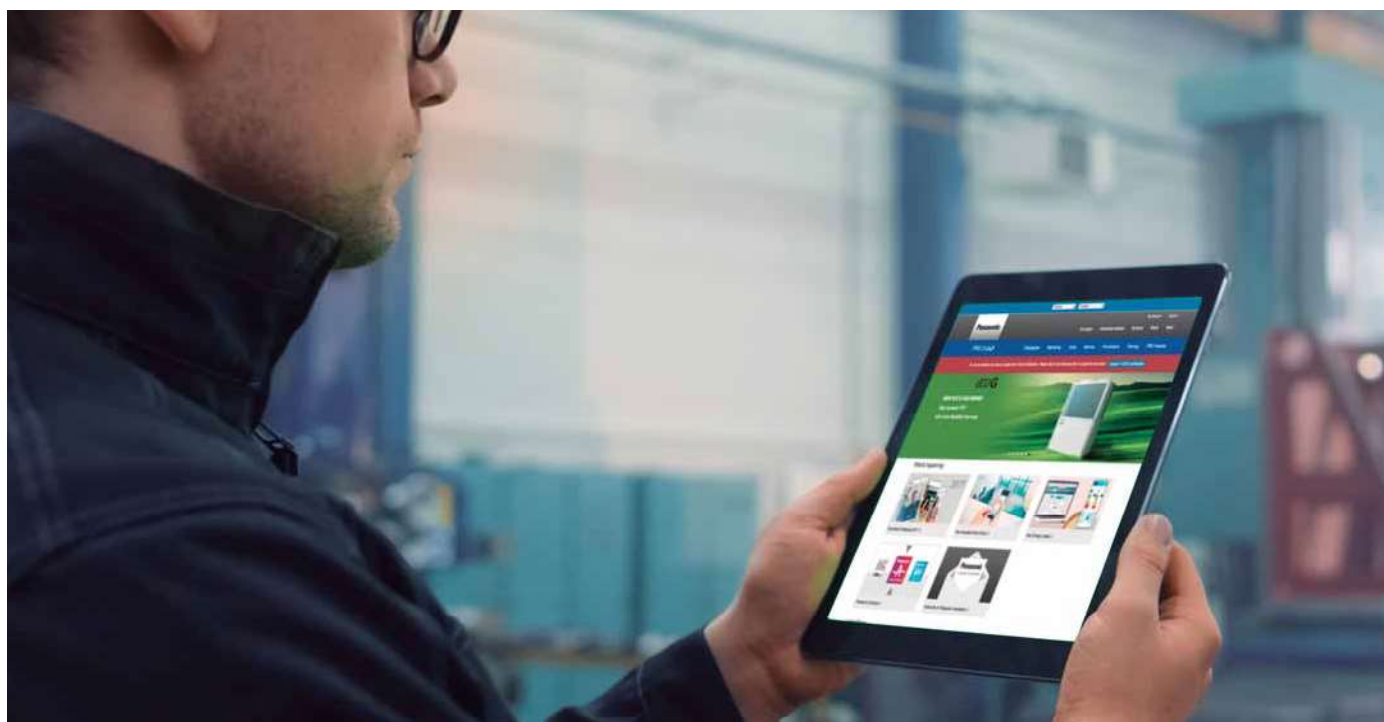

New VRF Systems ECOi EX with extraordinary energy-saving performance.

**Looking ahead**

The first Hybrid System with VRF and GHP in Europe.

# PRO CLUB. THE PROFESSIONAL WEBSITE OF PANASONIC

Panasonic has an impressive range of support services for designers, specifiers, engineers and distributors working in the heating and cooling markets. Panasonic PRO Club is the online tool which makes your life easier! You just have to register and a lot of functionalities are freely available to you, where ever you are, from your computer or smartphone!

## VRF Designer

Building on the success of the ECOi VRF Designer software, this package provides air conditioning system designers, installers and dealers with a program to design and size projects for Panasonic's VRF ranges.

## Aquarea Designer

Panasonic provides bespoke software helping system designers, installers and dealers to very quickly design and size systems, create wiring diagrams and issue bills of quantities at the push of a button.

## Panasonic helps you to calculate the system label

From 26th September 2015, installers can be assured that all products manufactured after this date will be sold with the required ErP labels which will aid installers with their paperwork. While it is the manufacturer's responsibility to issue their products with the required labels, the installers will need to calculate and issue an efficiency label for the entire heating system. Whether installing a new heating system or installing new boilers, controls or renewables into an existing system, it is, and will continue to be, the installer's responsibility to calculate and issue efficiency labels. Calculators which assist installers with this process are available on the Panasonic Heating and Cooling Solutions website.

Panasonic, a partner with the knowledge and experience to achieve your objectives and green needs.

### Integrated technology that permits better work, easy installation, high efficiency performance, and energy savings

Our main targets are the distributed services and B2B-integrated solutions.

Panasonic provides a single point of contact for the design and maintenance of your system, making things easy for you.

Given our experience in processes, technologies and complex business models, we can offer you effective solutions that reduce costs, whilst also being efficient, user-friendly, reliable and innovative.

Another advantage we offer to our clients is a support service for systems integration projects, which we provide through our wide range of services and solutions. As a global company, we have at our disposal the financial, logistical and technical resources to develop complex and wide-ranging solutions, both at country and international level by implementing them both on-time and on-budget.

Passive house in Tychowo near Stargard Szczecinski, Poland. **Aquarea**

New Hotel Monument 5\*GL is located in an 1896 palace. Barcelona, Spain. **ECOi and E-Control**

## PANASONIC DOMESTIC AIR TO AIR HEAT PUMP

Panasonic has developed a range of products designed for you, better than ever before. Above all, it is also a range for air conditioning professionals, such as yourself, thanks to its broad range of products which are capable of conditioning rooms of all sizes – always with optimal efficiency and incomparable ease of installation.

## R32 full domestic range.

All Domestic has transformed to R32 with excellent performance. Panasonic has not just fully adapted to new refrigerant, the new units has been design to maximize the advantages of new refrigerant from Wall, to Cassette, Hide Away, Floor Console and Multi Split Systems.

## Etherea stylish and outstanding features.

Highest energy class A+++ in both heating and cooling, purifies the air with advance purifying nanoe™ X system with imperceptible 19dB(A). New Etherea VKE is equipped with built-in WLAN for internet control and monitoring, by using Panasonic Comfort Cloud App.

## Purifying air we breath.

Panasonic systems are equipping different technologies to purify and clean the air. Anti allergy nanoe™ X and PM2,5 filters are some examples to take care of the air we breathe.

## Stylish Floor Console.

The R32 Floor Console has been designed for European market from Scratch. Floor Consoles purifies the air with nanoe™ X, quiet operation, high efficiency, new design control remote and accurate design are its attributes.

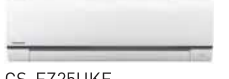

Floor Console awarded with the prestigious IF Design Award 2019.

## Panasonic Comfort Cloud control.

Panasonic Comfort Cloud control, with completely new user interface and controlling all domestic functions.

# HEATCHARGE. ENERGY CHARGE SYSTEM

heatcharge

Energy class A+++ and offers maximum comfort and energy savings. This powerful air heat pump is designed for commercial and residential climate that places extremely high demands on the heating system.

## Heating power and efficiency

- Energy Charge System. Heat storage unit which features Non-Stop heating and fast heating function
- nanoe™ air purifying system
- More powerful airflow to quickly reach the desired temperature

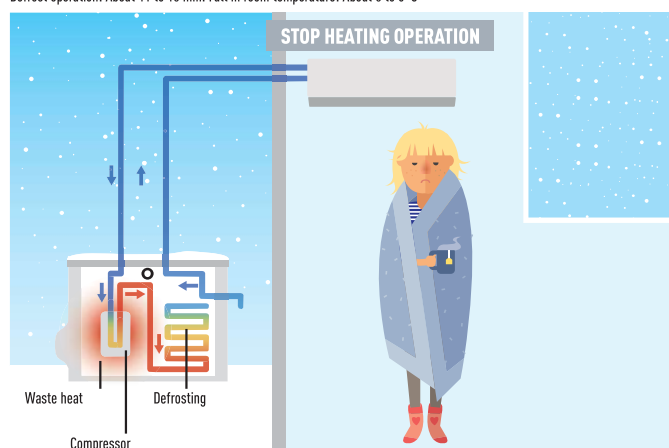

## Panasonic's new full line-up of A+++ heat pumps.

In response to the Kyoto Protocol, the European Union set some challenging targets for the reduction in greenhouse-gas emissions. By the year 2020, across the member states, the EU wants to have achieved the following objectives:

- A 20% cut in greenhouse gas emissions (from 1990 base levels)
- The share of renewables in the energy mix to increase by 20%
- An overall reduction of 20% in energy consumption

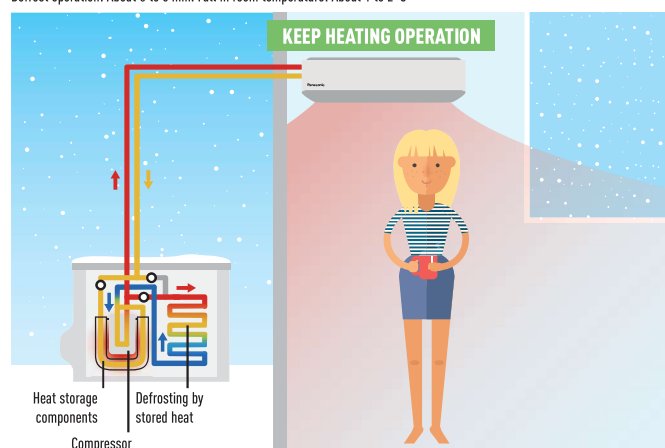

### Conventional. The room gradually becomes cold.

Defrost operation: About 11 to 15 min. Fall in room temperature: About 5 to 6°C

### Heatcharge. The room is thoroughly warmed.

Defrost operation: About 5 to 6 min. Fall in room temperature: About 1 to 2°C

\* Defrost operation time and how low room temperature falls differ depending on the environment in which the unit is being used (how insulated and airtight and room is), operation conditions, and temperature conditions.

\* Output air temperature falls during defrost operation. How low room temperature falls differs depending on the environment in which the unit is being used (how insulated and airtight and room is), operation conditions, and temperature conditions.

\* In environments where a lot of frost accumulates, heating may stop during defrost operation.

Smartphone control and monitoring with WLAN adaptor CZ-TAC61.

1) Energy Label Scale from A+++ to D. 2) EER and COP calculation is based in accordance to EN14511. 3) The annual energy consumption is calculated in accordance to EU/626/2011. 4) The sound pressure of the indoor unit shows the value measured of a position 1m in front of the main body and 0,8m below the unit. For outdoor unit 1m in front and 1m in rear side of main body. The sound pressure is measured in accordance with JIS C 9612. Q-Lo: Quiet mode. Lo: The lowest set fan speed. 5) Add 70mm for piping port. 6) When installing the outdoor unit at a higher position than the indoor unit. 7) Tested by 3rd party laboratory, SP, according to EN14511:2013 and SP Method 1721, this temperature is not guaranteed by Factory.

SEER and SCOP: For KIT-VZ9-SKE. -35°C HEATING MODE: Heating performance tested at -35°C by SP, European third party laboratory. INTERNET CONTROL: Optional.

# ETHEREA HAS AN ASTONISHINGLY SLIM DESIGN

ETHEREA

Etherea with nanoe™ X air-purifying system: outstanding efficiency A+++, comfort (Super Quiet technology only 19dB(A)) and healthy air combined with a breakthrough design.

## 1 Built-in WLAN

Ready to connect the unit to internet to be controlled by smartphone with Panasonic Comfort Cloud App. Control, monitor, easy schedule with easy interface.

## 2 Even cleaner air with nanoe™ X

New nanoe™ X is an outstanding air purifying bringing much higher performance for better indoor air quality.

## 3 Simple but elegant design

To suit European interior, we design the indoor to be simple and clean. Elegant finishing with white matt or silver color.

## 4 New wireless control

Enjoy innovative design at your fingertips with the new stylish and sleek Backlit Sky Controller. Bigger screen and easier to use.

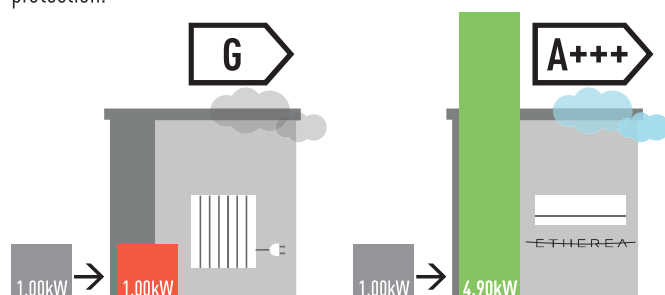

### Get the best for your health with Ethera and nanoe™ X.

Using nano-technology, nano-sized electrostatic atomised water particles purify the air in the room. It works effectively on airborne and adhesive micro-organisms such as certain types of bacteria, viruses and mould thus ensuring a cleaner living environment.

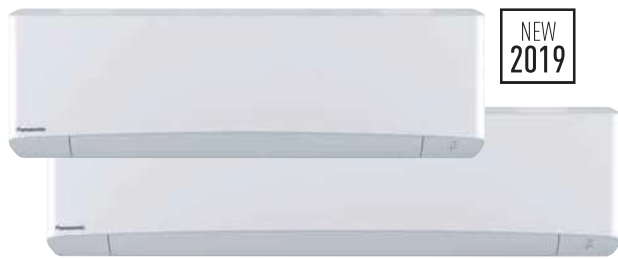

### Etherea maximum savings, outstanding efficiency A+++

Highest energy class. Original Panasonic Inverter technology and a high performance compressor provide top-class operating efficiency. This lets you enjoy lower electricity bills while contributing to environmental protection.

\* SCOP on heating mode for KIT-XZ25-VKE and KIT-Z25-VKE compared with electrical heaters at +7°C.

1) EER and COP calculation is based in accordance to EN14511. 2) Energy Label Scale from A+++ to D. 3) The annual energy consumption is calculated in accordance to EU/626/2011. 4) The sound pressure of the indoor unit shows the value measured at a position 1m in front of the main body and 0,8m below the unit. For outdoor unit 1m in front and 1m in rear side of main body. The sound pressure is measured in accordance with JIS C 9612. Q-Lo: Quiet mode. Lo: The lowest set fan speed. 5) Add 70mm for piping port. 6) When installing the outdoor unit at a higher position than the indoor unit.

SEER and SCOP: For KIT-XZ25-VKE, KIT-XZ35-VKE, KIT-Z25-VKE and KIT-Z35-VKE. SUPER QUIET: For KIT-XZ20-VKE, KIT-XZ25-VKE, KIT-XZ35-VKE and KIT-Z35-VKE. INTERNET CONTROL: Built-in WLAN.

# WALL MOUNTED TZ COMPACT STYLE

The perfect air conditioner for the smallest spaces in your home.  
New TZ with R32 GAS powerful and efficient.

## TZ Inverter models powerful and efficient

### Heating power and efficiency.

- R32 gas is more environmentally friendly than R410A
- Wired Controller (optional)
- Complete line-up of standard Inverter models
- Super Quiet! Only 20dB(A)
- High energy savings
- Long connection distance (from 15m up to 30m)

## TZ compact indoor size

The TZ indoor units have a new size. With 799mm of width, you can put the air conditioner on the top of the door.

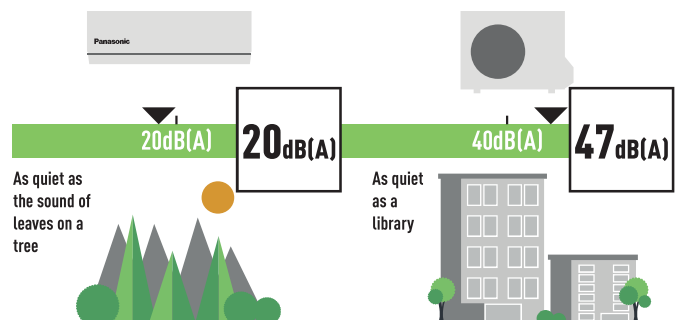

## Silent ambient and relaxing atmosphere 20dB(A)

We have succeeded in making one of the most silent air conditioners on the market. Panasonic Inverter air conditioner's indoor operating noise has been reduced as the Inverter constantly varies its output power to enable more precise temperature control.

Quiet Mode reduces operation noise to a quiet 20dB(A)\* for a comfortable night's sleep.

Noise is 7dB(A) quieter than during regular operation.

\* KIT-TZ20-TKE, KIT-TZ25-TKE and KIT-TZ35-TKE: In the Quiet Mode during cooling operation with low fan speed.

## PM2,5

Particulate matter (PM2,5) can be found suspended in the air, including dust, dirt, smoke and liquid droplets. This filter can catch PM2,5 particles including hazardous pollutants as well as house dust and pollen. It is able to maintain clean the air of the room by deodorization too.

Smartphone control and monitoring with WLAN adaptor CZ-TAC61.

# NANO<sup>™</sup> X. QUALITY AIR FOR LIFE

No matter where you are on planet earth, air is an essential part in your life. We're working to help every person enjoy better health and comfort by nanoe<sup>™</sup> X air purifier technologies.

## 1

### Deodorises

nanoe<sup>™</sup> X deodorises strong and unpleasant odours that cause uneasiness so you can enjoy a more pleasant living space for greater well-being.

## 2

### Inhibits certain Bacteria & Viruses

nanoe<sup>™</sup> X inhibits the growth of certain allergens, bacteria and viruses in your home, maintaining a cleaner home for your children.

## 3

### Moisturing Skin

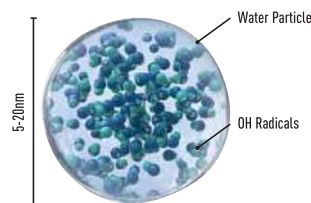

Helps retain the moisture of the skin.

## nanoe<sup>™</sup> X deodorises and inhibits certain bacteria and viruses

### nanoe<sup>™</sup> X contains 10X times<sup>1</sup> more OH radicals.

The newly developed nanoe<sup>™</sup> X device produces 10x times more OH radicals (4800 billion)<sup>1</sup> than regular nanoe<sup>™</sup> device. Greater amounts of OH radicals contained in nanoe<sup>™</sup> X lead to outstanding effects in bacteria, viruses and allergens inhibition as well as deodorisation. A fresher and cleaner home awaits you.

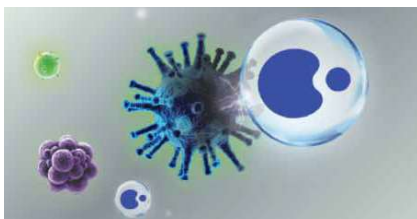

1) Based on Panasonic Survey.

**4800 BILLION  
OH RADICALS /  
PER SECOND**

## How nanoe<sup>™</sup> X keeps air fresh and clean

nanoe<sup>™</sup> X reaches bacteria.

OH radicals take away hydrogen from bacteria.

OH radicals transform hydrogen in bacteria to water and inhibit bacterial activity.

Smartphone control and monitoring with WLAN adaptor CZ-TAC61.

<b>CZ-RL511D</b> NEW Infrared remote controller Sky Remote. 2m cable length of infrared receiver (available in April 2019)	

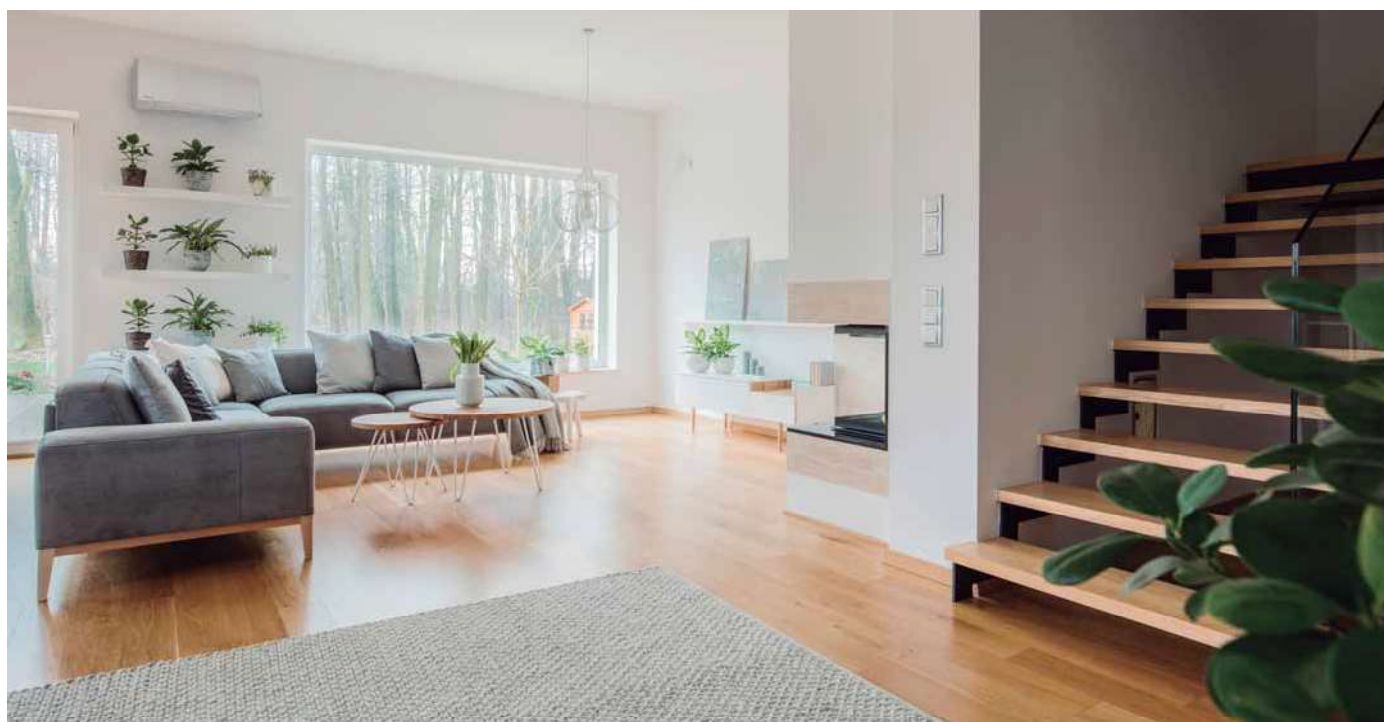

1) EER and COP calculation is based in accordance to EN14511. 2) Energy Label Scale from A+++ to D. 3) The annual energy consumption is calculated in accordance to EU/626/2011. 4) The specification listed on the table indicates values under the condition of 25Pa (2,5mmAq) which are applied for factory default setting. Change switch on PCB from Hi to S-Hi to have more than 6,0mmAq. 5) The sound pressure of the indoor unit shows the value measured of a position of 1,5m below the unit with 1m duct on the suction side and 2m duct on the discharge side. For outdoor unit 1m in front and 1m in rear side of main body. The sound pressure is measured in accordance with JIS C 9612. 6) Add 100mm for indoor unit or 70mm for outdoor unit for piping port. 7) When installing the outdoor unit at a higher position than the indoor unit.

SEER and SCOP: For KIT-Z25-UD3EA. INTERNET CONTROL: Optional.

# MULTI SPLIT AND FREE MULTI SYSTEM

If air conditioning requirements exceed the ambit of a single room, Panasonic offers you a very extensive range of possibilities with up to 5 indoor units connected to a single outdoor unit.

## Panasonic offers widest range in Multi split systems

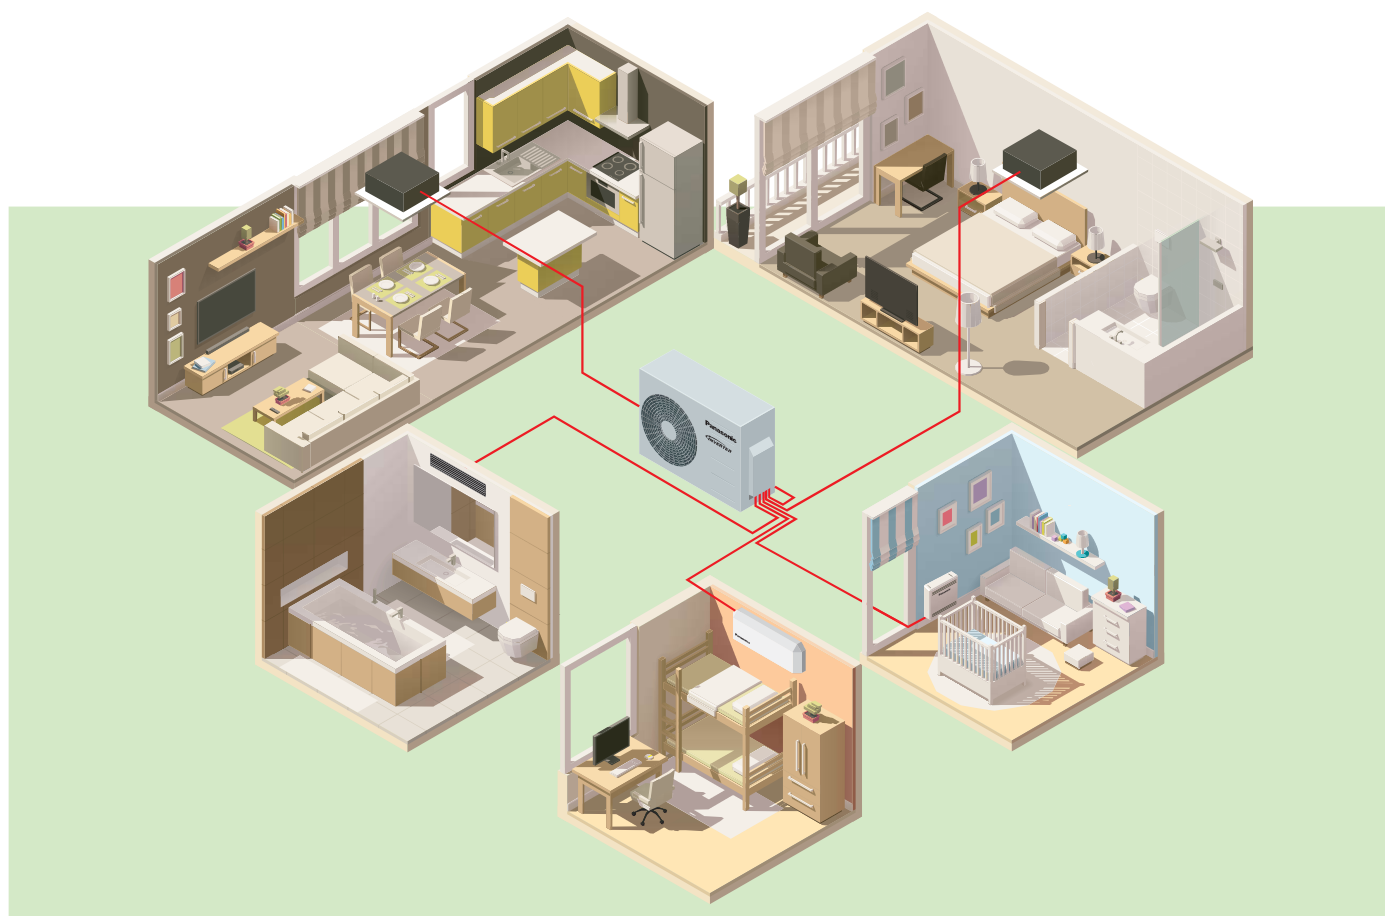

2 types of Multi split range from 3,50 to 9,00kW for 5 indoor units with one outdoor unit.

Free Multi Z	New Multi TZ Wall with R32 refrigerant
Full flexibility up to 9,00kW and up to 5 ports with wide range of indoor units including high performance Etherea indoor units, reaching up to A+++ / A++	From 4,10 to 5,20kW for TZ Wall Compact Style unit, reaches A++ / A+

					Indoor units				
Line up	Refrigerant	Capacities	Indoor unit ports	Efficiency up to	Etherea	Compact Style	Floor Console	Cassette	Hide Away
<b>Multi Z</b>	R32	8 units (3,50 ~ 9,00kW)	2~5	<b>A+++ / A++</b>	Yes	Yes	Yes	Yes	Yes
<b>Multi TZ</b>	R32	3 units (4,10 ~ 5,20kW)	2~3	<b>A++ / A+</b>		Yes			

## Multi split systems

Day and Night	Simultaneous
Ideal for 2 day and night areas. Simultaneous use possible.	When indoor units are most time working at same time.

### Why a Multi Split is better than several separate split units

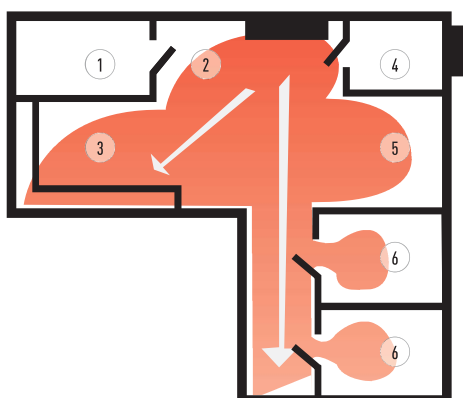

#### Up to 5 indoor units with a single outdoor unit.

- Just one compact outdoor unit
- Increased comfort in the house since every room has its own indoor unit for heating

- Much more powerful than a single split
- More efficient since the units are always operating at full capacity
- You can connect all types of indoor units, such as wall types and consoles, depending on what suits your house best

#### Solution with single split.

One indoor unit is connected to one outdoor unit. The indoor unit is placed in the main hallway and heats the entire house. Certain rooms may not be perfectly heated, which causes inadequate comfort.

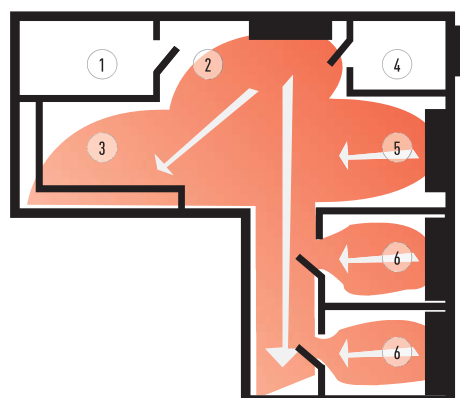

1. Laundry room  
2. Entrance

3. Kitchen/dining area  
4. Bathroom

5. Living room  
6. Bedroom

#### Solution with Multi Split.

With one outdoor unit, you can connect up to five indoor units. There is one indoor unit per room or area. It gives an extreme increase in comfort levels. On the roof, there is only one outdoor unit.

# NEW PANASONIC COMFORT CLOUD

More than a control in your phone.

NEW  
BOUNDARIES  
IN CONTROL

ENERGY  
MONITOR AND  
STATISTICS

SCALABILITY  
AND USERS  
MANAGEMENT

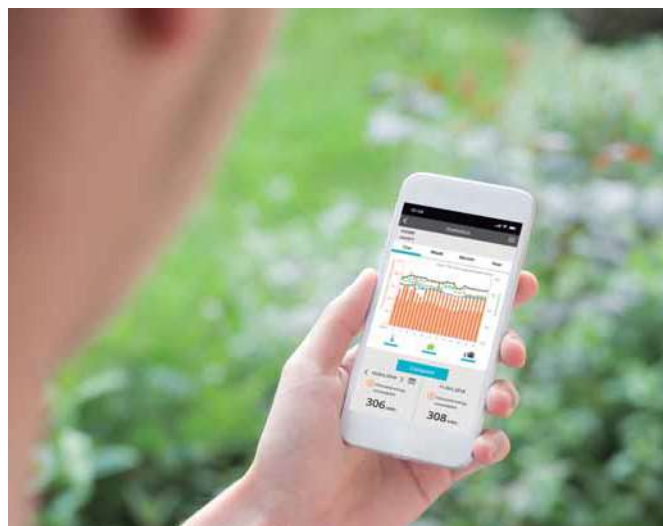

## Advanced smartphone control for domestic range.

Control air to air heat pump operation with Panasonic Comfort Cloud plus additional functions only available thru the Cloud from wherever and whenever. One user can manage up to 200 units and also set up different user and rights. Also energy monitor is possible giving the chance to learn how to reduce even more the operating cost.

## New possibilities, new applications

- 1. Families:** Different users can be set up, such as each child can manage their own room only. In the case of second houses, this can be remotely pre-cooled or pre-warmed. Or just turned OFF remotely if someone forget and left the system on.
- 2. Multi tenant owner:** Can manage different sites, up to 200 units with just one smartphone. Knowing the consumption of each place and remotely have error codes remotely for better and quick maintenance.
- 3. Small and medium sized offices:** Owner can control different rooms of the office easily and give unit by unit access to their staff. Also providing information to know where energy might be wasted for heating and cooling and promoting best comfort practices.

## 1 New boundaries in control

With Panasonic Comfort Cloud the user can manage all functions of the heat pump plus even more. All functions that your heat pump can include like nanoe™ X air purifier, air flow direction, speed, temperature setting, mode,... all these can be simply managed through Panasonic Comfort Cloud. Also some other additional functions can be easily managed through the App including:

- All ON/OFF at once. For sites with more than one unit in one site, user can turn them all ON or OFF with just one click
- Set weekly timer. Set up to 6 events per day, 42 in a week, easy, intuitive and fast
- Pre-heat or cool. Control your house or office comfort - before you arrive!
- Error code notification. If trouble occurs, error notification or maintenance code is shown

## 2 Energy monitor and statistics

Knowing the energy each unit uses when operating is key to see opportunities to reduce the energy bill. Panasonic Comfort Cloud stores the energy consumption\* of each unit, which can then be shown in easy and powerful statistics graphs. This function is available from VKE, TKE and UKE generation.

With the weekly timer the operation can be adjusted to optimize the usage of the energy.

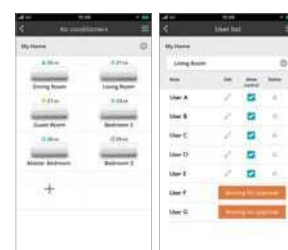

\*Estimated energy consumption data accuracy is depending on power supply quality.

## 3 Scalability and users management

Easily to include additional units and locations as well as including several users with different access rights. This creates more possibilities to manage family house, a second house and also provides opportunities for small/medium sized offices or multi-tenant properties.

- Up to 200 units. Up to 10 Locations (20 units per site)
- User's control rights. Main user can set up other users with limited rights on units and set up

Compatibility: Most Panasonic Domestic range are compatible with CZ-TACG1 WLAN accessory: CS-VZ\*\*SKE, CS-XZ\*\*VKEW, CS-TZ\*\*TKEW, CS-RZ\*\*VKEW, CS-FZ\*\*UKE, CS-UZ\*\*VKE, CS-PZ\*\*VKE, CS-DZ\*\*VKE, CS-Z\*\*TKEA, CS-Z\*\*UFEAW, CS-Z\*\*UB4EAW, CS-Z\*\*UD3EAW, . CS-XE\*\*SKEW, CS-E\*\*SKEW-M, CS-TE\*\*TKEW, CS-FE\*\*UKE, CS-BE\*\*TKE, CS-DE\*\*TKE, CS-E\*\*PKEA, CS-E\*\*PB4EA, CS-E\*\*PD3EA. VKE generation will be also compatible. For built-in WLAN such as CS-Z\*\*VKEW, CS-MZ16VKE and CS-XZ\*\*VKEW it is not required the accessory CZ-TACG1.

Remark: indoor temperature display and some special functions are not available through the App for all models. Languages: Available in 19 European languages: Bulgarian, Croatian, Czech, Danish, Deutsch, English, Estonian, Finnish, French, Greek, Hungarian, Italian, Norwegian, Polish, Portuguese, Slovenian, Spanish, Swedish and Turkish.

Panasonic Comfort Cloud

Input Voltage	DC 12V
Power Consumption	Max. 660mW
Size (H x W x D)	66 x 36 x 12mm
Mass	Approx. 85g
Interface	1 x Wireless LAN
Wireless LAN Standard	IEEE 802.11 b/g/n
Frequency Range	2.4GHz band
Encryption	WPA2-PSK (TKIP/AES)

# NEW SKY CONTROLLER VERSATILE CONTROL UP

Enjoy innovative design at your fingertips with the new stylish and sleek Backlit Sky Controller.

With fast access to key operations and a smooth gliding cover revealing more options, controlling your settings has become simple and intuitive. With a width of 58,9mm and a length of 164,7mm, the Sky Controller fits comfortably into your hand.

## Backlit led screen

The Sky Controller reveals its settings in a better light thanks to the new backlit screen. Now you can adjust your settings without having to switch on the lights.

## Distinctive sliding cover

A smooth sliding cover does not only enhance the remote's clean lines, but keeps the buttons free from dirt and smudges.

## Precise temperature control

With the Sky Controller's 0,5°C temperature control, enjoy more precise temperature regulation and experience greater comfort.

# ACCESSORIES AND CONTROL

## Accessories Interfaces

### CZ-TACG1

Panasonic Comfort Cloud for internet control.

0000 €

### CZ-CAPRA1

RAC interface adapter for integration into P-Link.

0000 €

### PAW-IR-WIFI-1

Interface (Etherea, 4 Way 60x60 Cassette and Hide Away).

0000 €

### PAW-AC-KNX-1i

This interface can be used with all models which have a CN-CNT connector.

0000 €

### PAW-AC-MBS-1

This interface can be used with all models which have a CN-CNT connector.

0000 €

### PAW-AC-ENO-1i

This interface can be used with all models which have a CN-CNT connector.

0000 €

### PAW-AC-BAC-1

This interface can be used with all models which have a CN-CNT connector.

0000 €

### PAW-AC-DIO

This interface can be used with all models which have a CN-RMT connector.

0000 €

### PAW-AC-HEAT-1

Heating only PCB for Etherea, 4 Way 60x60 Cassette and Hide Away.

0000 €

### PAW-SMSCONTROL

Control of the Etherea, Flagship and Heatcharge by SMS (need additional SIM card).

0000 €

## Individual Controls

### CZ-RD514C

Wired remote controller for wall type.

0000 €

### CZ-RD52CP

Wired remote controller for Cassette.

0000 €

### CZ-RL511D

**NEW** Infrared remote controller Sky Remote. 2m cable length of infrared receiver for Hide Away (available in April 2019).

0000 €

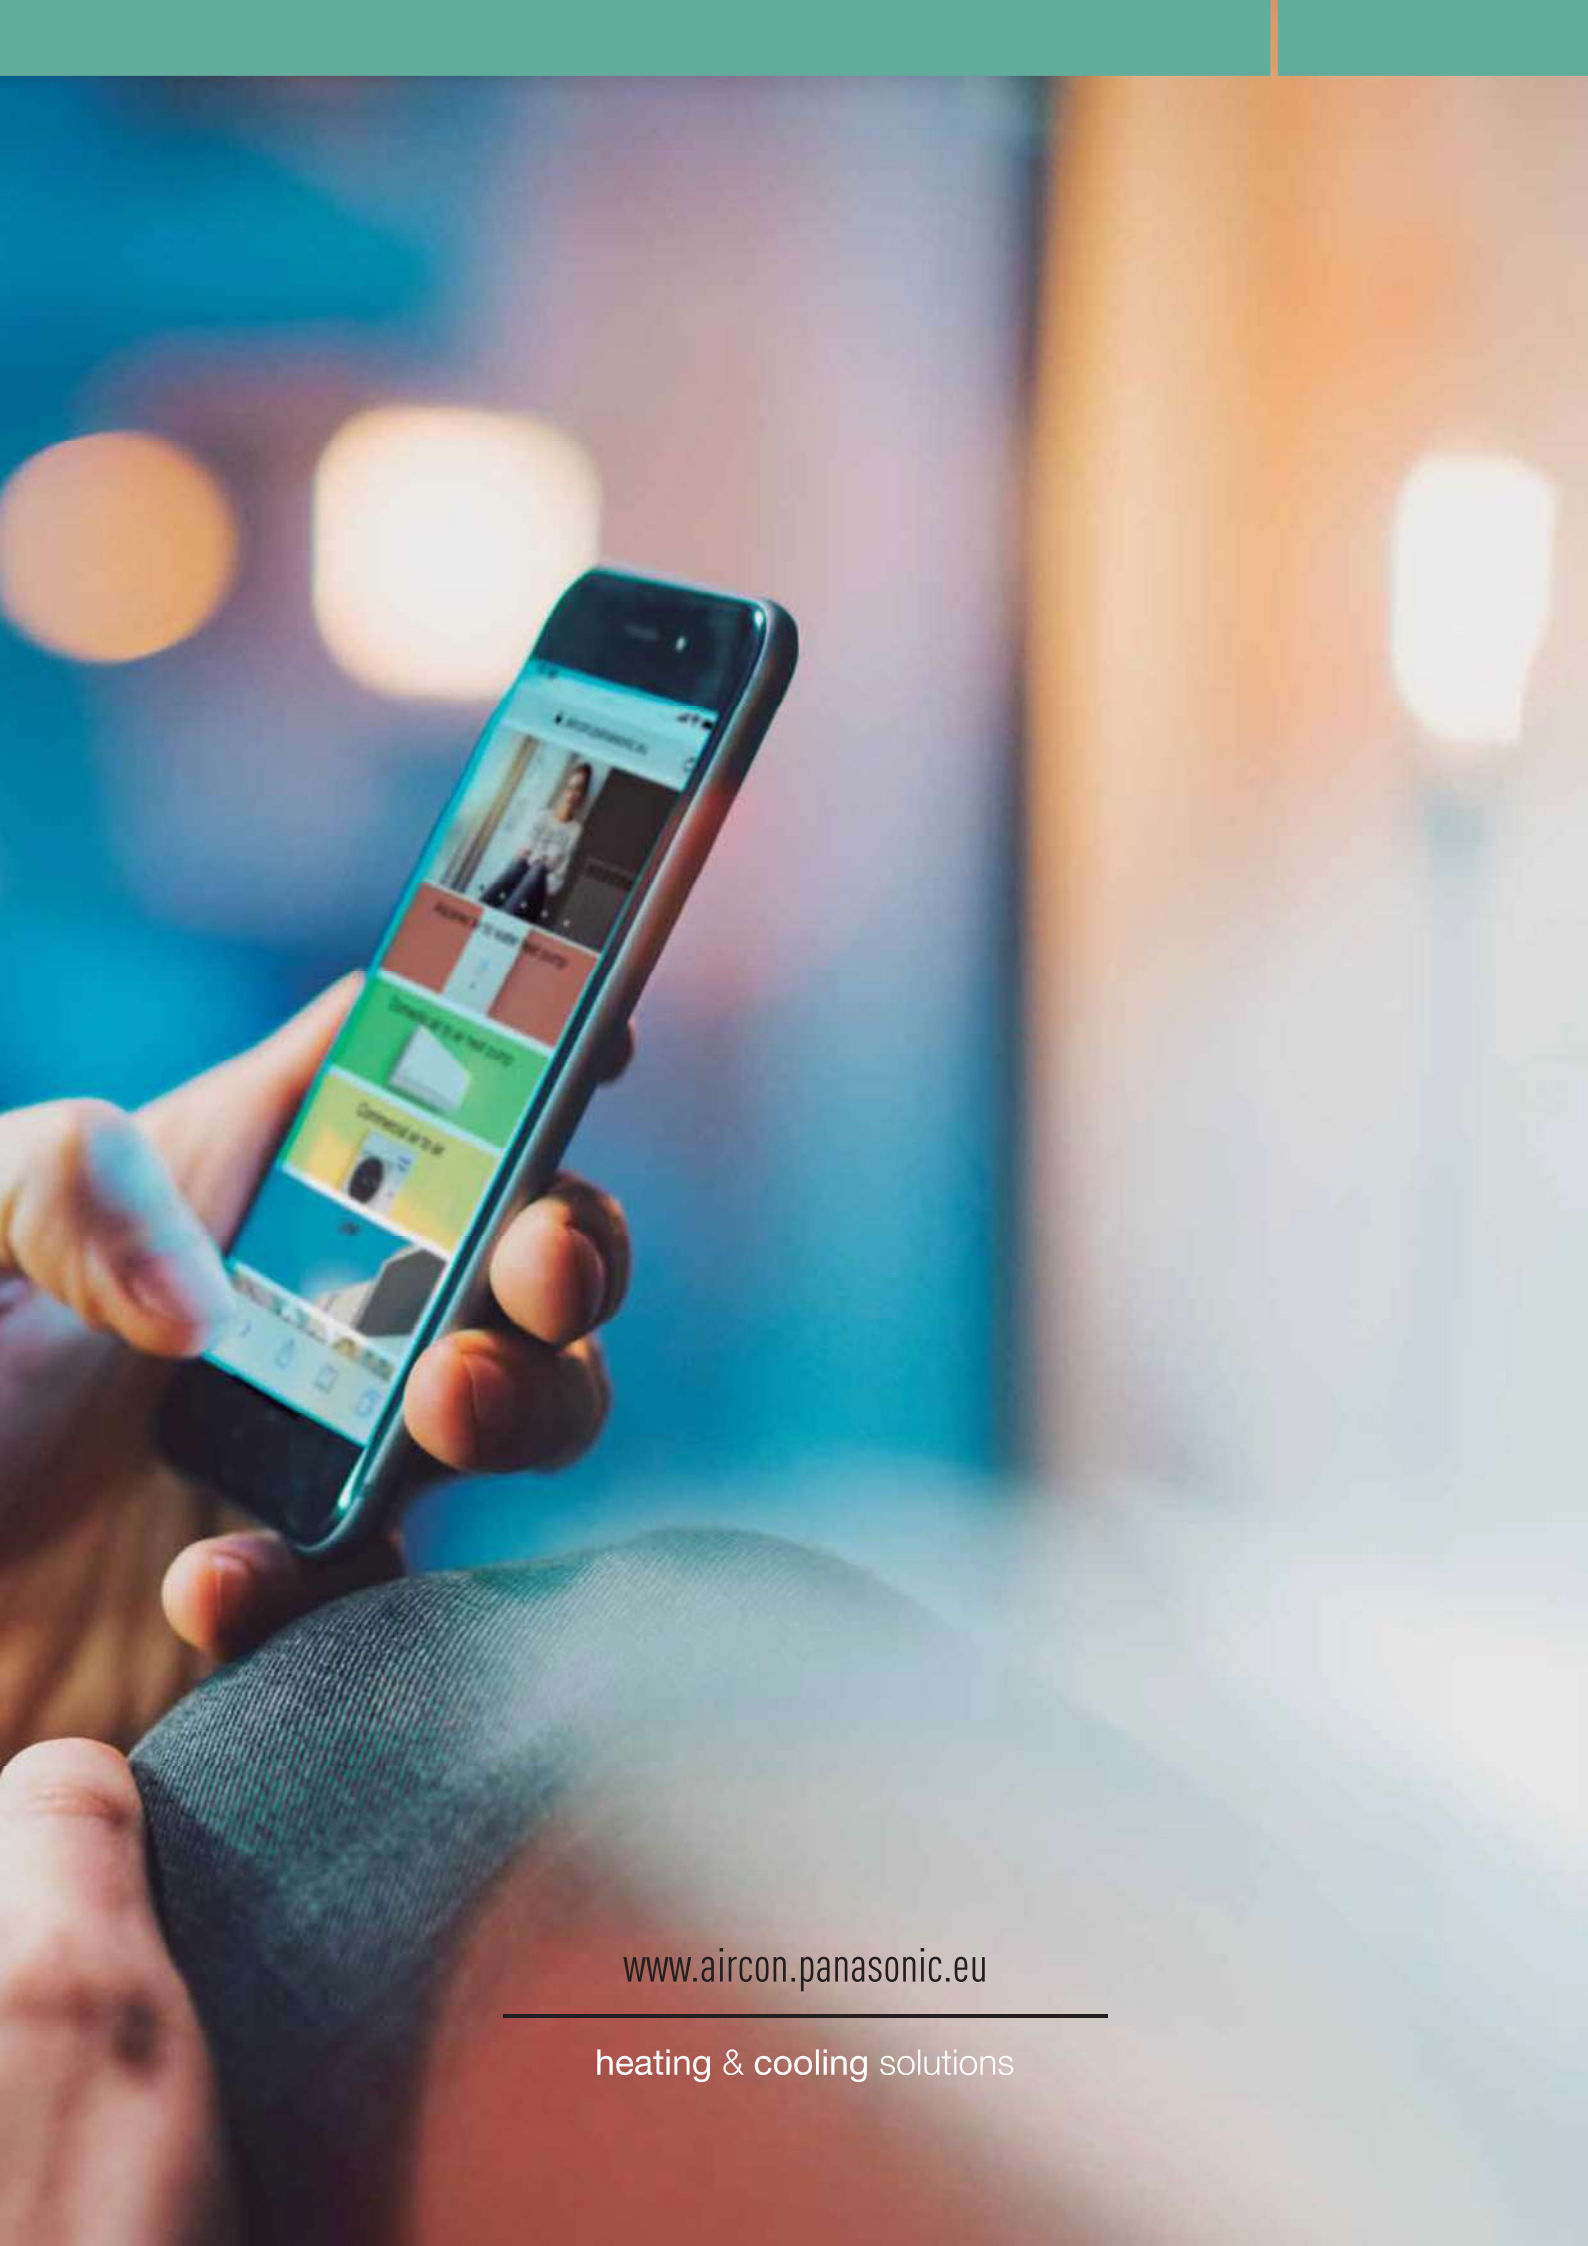

## Panel

### CZ-BT20EW

RAL9010 panel for 4 Way 60x60 Cassette.

0000 €
